EXPERIENCES

ATG - Java Development Intern

Sep 2022 - Nov 2022

Stipend

- Work for a 3-month remote internship in ATG.
- Work on creating **REST APIs** using **Spring Boot**.
- I explored Spring Boot here and got a good experience from there.

CSKAA - Java Development Intern

Jan 2024 - Currently Working

Stipend

- Work for a 3-month work-from-home internship in CSKAA.
- Work with a team on the **courier management website** that is **zip2d.com** and **VegaCRM.com**.
Project link: <https://zip2d.com/>.
- Work on different modules where I work on the **Backend** and **frontend both**, create **RestAPIs** and more.

PROJECTS

MedAI - Team Project

Sep 2023 - Present

- It's an AI-based medical website. Users can create accounts to
- access website functions like
login systems, diabetes prediction, cancer prediction, and more.
- Login system using **Spring security** and data management using **MySQL**.
- **RestTemplate** to call external API from Python (model).
- **Payment gateway(RazorPay)** and online video
chatting are integrated into this website.
- All Java work is done by myself.
- **Project link :**
<https://github.com/Aditya19Gupta/MedAI>
- **Video link :** <https://shorturl.at/dgovl>

Tech Stack: Spring Boot and Security, Java, RestTemplate, python, and machine learning.

Contact - Individual Project

July 2023 - Aug 2023

- It's a Contact management web app.
- Use Spring Security for authorization of the user, the user can log in or log out.
- User can save, delete, update, and read their contact and all data is managed from the MySQL database.
- Include a dynamic searching system by which users can search the contact.
- **Project link :**
<https://github.com/Aditya19Gupta/ContactManager>
- **Video link :**
<https://shorturl.at/dgovl>

Tech Stack: Spring Boot and Security, Java, Javascript, jQuery, MySQL, RESTAPIs.

COURSES

Core Java : Internshala

with 84.7% marks

Credential : [Core Java Certificate](#)

Java Spring Boot : Scaler

with 87% marks

Credential : [Spring Boot Training Certificate](#)
